

"Wheels at Wood" is a charity event to raise funds to support Archbishop Wood's award-winning "RoboVikings" Robotics Team, who were semi-finalists in 2020 and finalists in 2023 at the FIRST World Championships. It takes tens-of-thousands of dollars annually to keep the team going, and the students are holding this show to offset much of those costs. Please consider coming!

We will have live entertainment offering a variety of music styles. The show will also include demos of the robotics team's robots, a beer wall raffle and gift basket raffles, along with great food, hot and cold beverages and tempting treats. It's one of the most exciting and entertaining shows of the year!

****The first 100 vehicles registered will receive dash plaques****
